

Assessment 3. Part A

Multicultural Health Information Package

Design a "user friendly" information document to facilitate cultural awareness for health care practitioners. This document must supply an overview of specific aspects of a cultural group (residing in W.A) that may be pertinent to nursing care and hospitalisation. Please include information about this group's beliefs and traditions associated with all of the following;

- Dietary requirements (E.G fasting, religious practices)
- Dress
- Birth rites ॐ
- Death rites ॐ
- Communication / body language
- Kinship and roles within the family
- Counselling / interviews
- Religious beliefs associated with treatments (E.G surgery)
- Traditional therapies / medicine and practitioners

Part B

Your will present your findings to the class with a 3-5 minute oral presentation.

Health care care

THIS IS DUE WEEK 9
GOOD LUCK!
Practitioner.
